This project will involve all aspects of the planning, engineering, and construction of a 20,000 square foot addition to our main refrigerated warehouse and distribution center located at 901 Rail Drive, Watertown, NY. The proposed renovation and expansion project will consist of the addition of a 10,000 square foot refrigerated dock/staging area with 8 dock doors and the addition of 10,000 square feet of dry storage to our warehouse.

Describe the reasons why the Agency's Financial Assistance is necessary, and the effect the Project will have on the Applicant's business or operations. Focus on competitiveness issues, project shortfalls, etc... Your eligibility determination will be based in part on your answer (attach additional pages if necessary): _____

We have proven for the last 20 years that an increase in sales creates the need for additional capacity, which in turn creates the need for additional workforce to manage that capacity. We have sustained \$82 million in growth over the last 14 years and are projecting an additional \$20 million increase over the next 5 years. In order to sustain our growth and to increase our local workforce, we have determined that a building expansion is necessary. With the cost of construction being at an all-time high, funding from these programs would have a significant impact in meeting our goals and those of the North Country as it relates to the creation of jobs and related opportunities

Please confirm by checking the box, below, if there is a strong possibility that the Project would not be undertaken but for the Financial Assistance provided by the Agency?

☒ Yes or ☐ No

If Yes, please provide details: Reference the answer to the next 2 questions

If the Project could be undertaken without Financial Assistance provided by the Agency, then provide a statement in the space provided below indicating why the Project should be undertaken by the Agency: _____

This project advances the North Country Region's tradable sectors strategy to "maintain, establish, and expand storage, processing, and distribution systems in the Region to promote the sale of value-added agricultural products that are sold locally, regionally, and globally." It will further enhance our storage and distribution capacity that we demonstrated during the pandemic when we provided curbside deliveries and participated in local food distribution events. Our training of entry-level workers (while collaborating with the Jefferson-Lewis Workforce Development Board), and training/advancement of our incumbent workers support the Region's workforce strategies to reduce barriers, create opportunities for upward mobility, and increase the regional workforce's capacity and capability.

If the Applicant is unable to obtain Financial Assistance for the Project, what will be the impact on the Applicant? _____

In the event we are not awarded anticipated funding, the project will likely be delayed or we will need to reduce the size of our expansion and associated job creation. We will also seek additional funding elsewhere and/or search for alternative solutions such as self-funding and the use of local financial institutions.
